

# BRANCH CREEK BIO TRUE GRANULAR

**High-performance BC Bio True Granular microbial fertilizers are scientifically formulated to not only make your golf course tournament-ready but deliver a strong and healthy root system throughout the seasons.**

## 4-4-4 with BC Bio True Granular Fine With BC Biologicals

This premium grade micro granular fertilizer has a size grade number of 110 and contains only 100% organic nutrient rich ingredients infused with value added biologicals. Both humic acids and microorganism development work to strengthen plant's roots for greater absorption of water and disease-fighting elements. Recommended for spring and fall aeration recovery, midsummer stress management, winter dormant feeding, cool season over-seeding nutrition, and warm season transition.

Bio included Myco | Tricho | Bacillus | Humates  
**Available Packaging:** 50Lb. Poly Bag, 2000 Lb. Totes\*

## 4-4-4 with BC Bio True Granular With BC Biologicals

A balanced formula containing all the macronutrients plants need all season long. Formulated for organic use, this premium-grade granular fertilizer contains nutrient-rich ingredients infused with value-added BC biologicals. Proprietary True Granular Technology combines humic acid and essential nutrients such as NPK, Ca, and Fe into a slow-release and easy-to-spread granule.

Bio included Myco | Tricho | Bacillus | Humates  
**Available Packaging:** 50Lb. Poly Bag, 2000 Lb. Totes\*

## 5-3-2 with BC Bio True Granular With BC Biologicals

Branch Creek's base formula containing 100% organic and natural ingredients plus twice the concentration of biological additions compared to other dry formulas. Using minerals like humic acids, our fertilizer is guaranteed to enrich soil content in a way that won't burn roots. Strengthens root growth and overall plant health.
